Re: 2006 TUNING INTO OUR TEENS CONFERENCE REPORT
Attn: JEAN VIOLETTE - SFC BOARD CHAIR

The 5th annual Tuning Into Our Teens conference was held October 13th, 2006 and was *better than ever!* We enjoyed a record number of participants ~ 100+ teens and 140+ adults. The conference brought awareness to teenaged girls of the challenges and dangers facing them in today's world, but also made parents aware of those same issues. An important result is the dialogue it created, and an increased understanding of one another. The attached Agenda of the day gives you an overview of the workshops and presenters ~ *a feel* of what the participants experienced.

The conference was held at H.D. Stafford Stafford Secondary School located at 20441 Grade Crescent, Langley, BC. Admission for adults was \$10.00, and as Girls are "Priceless", they were not charged. The attached *Press Release*, dated October 14, 2006, highlights the day's events.

Also attached is the poster used for Publicity, the list of Sponsors, and the Financial Statement.

We are delighted that this pilot project has become a *Permanent Identifying Project* for SFC and Club Grants are available to all Canadian SI clubs! Profiling SFC and increasing donations remains a key objective of this entire project. We included SFC information and handouts at our SI display table, reflected as a key sponsor on all our publicity materials, Agenda and Sponsor sheet. In our Opening Remarks we acknowledged the \$1,000 grant received by profiling SFC as the main sponsor for the Speakers and Workshops. SFC has been highlighted at all our previous conferences and we are very keen on continuing that branding of its involvement.

Trust this summary and the attached documents provide you with the required information in support of the \$1,000 grant funds received. If you have any questions, please contact me at Ph: 604-534-6885 or by Email @ ehohmann@telus.net

Respectfully submitted,

Evelyn Hohmann
